By taking some basic details Jane can help you make the right choice.

### Your Consultation

Numerology is a brilliant way of looking at your life in a whole new way and understanding what is really going on. Numerologists believe we are all born into a unique set of circumstances, tailor made for us to learn our lessons and to learn from our karma - so that we can complete our unique mission. The universe wants us to complete our mission and learn our lesson's possibly turning some karma around along the way. When we understand what we are here to do, it can be quite tangible the universe supporting and guiding us with regard to this.

In your consultation (which will last at least 2 hours) I will explain how your characteristics, lesson's and karma can help you to complete what you are here to do. Everyone has a 'key to their door' and an 'Impetus for their Soul', and most have lesson's and sub lesson's as they get older.

As well as the essence of who we are, we have our approach on a day to day basis, our 'Soul Urge' our motivation (that becomes more important to us as we get older). We also have our 'Expression number' which defines how the world see's us (and this can be very different to how we see ourselves). This number in particular can help you to understand the work that is right for you.

With regard to our characteristics, significant strengths and weaknesses can be illustrated in 'Arrows of Individuality', 'cornerstones to character' and temperament.

Also defined are your goals, specific challenges and how these change, together with your different 'survival mechanism's at different times in your life.

### Your Life Map

This details every year from 0 to 99. It shows the essence of what happens and the best approach to achieve your Life's Mission. It also shows additional challenges . It is a great way of looking objectively at your life and understanding the bigger picture. Patterns in behavior and obstacles can be explained. 'Your significant years to date' are reviewed and the next ten years analysed in detail.

### Your Relationship Chart

This helps you understand the connections you share with the people in your world i.e.

Why you have chosen your parents?

Why have your children chosen you as a parent?

What can you realise with that special person(s) in your world?

Why does a certain person drive you nuts?

#### Consultation

Your consultation lasts for at least two hours and is recorded. Your 'Life Map', 'Relationship Chart' as well as the recording of the consultation will be available for you to download from my secure web site (paper printouts and cd's available).

Your consultation includes an in depth analysis of your 'Life Map' and 'Relationship Chart' in the context of what you are here to do. Also taken into account are any 'name changes' or 'nicknames'.

Your 'Life Map' gives a year by year analysis, I can review at 4 monthly intervals certain important periods.

Your 'Relationship Chart can include the dates of birth of people important to you (family / friends). I can analyse significant dates in your life e.g. marriage and/or divorce dates as a 'mission with lessons', 'goals' and 'arrows of individuality' will arise from any given date.

Your whole journey cab be viewed through your consultation, by verifying years to date, patterns can be seen to emerge and the way forward can become clear.
