

WHERE WILL I BE IN 2012 ? WHAT IS THE SIGNIFICANCE OF 11/11/11 ?

In most consultations I am asked these questions and so have given an explanation below....

First of all 2012 represents a physical shift, in which planet Earth aligns with the sun and as a result of this shift, whole new energies will be 'coming through'. The challenge throughout 2012 is to embrace change. $2+0+1+2 = 5$ and five is about using your five senses to find your truth and to live your truth; five also represents freedom and breaking out of the box of conventional thinking represented by four.

"21/12/12 signifies the end of a 26,000 year astronomical period and the end of the Atlantean Period". Diana Cooper

"21/12/12 marks the start of a new 20 year transition period. On the winter solstice of 2012 Neptune, Pluto and Uranus are configured to interact. Neptune represents higher spirituality, Pluto transformation and Uranus change. As the energies work together they will cause a massive impact on the consciousness of the planet". Diana Cooper

With the above date can come great scepticism and frustration, as well as new, inspired ways of thinking and great courage, as well as great emotion. It is significant that 21 December represents the last day of Sagittarius, which can represent 'Crisis of Faith' and 22 December is the first day in Capricorn which can represent 'The Awakening'.

We are now close to 2012 and you may have noticed 'things seem to be speeding up' with great negativity coming to the surface in the form of both natural and manmade disasters. It is as if negativity has to be brought to the surface, before it to be shifted, as part of the earth's cleansing process.

"There may be 'cosmic moments' in the build up to 21/12/12, the first at 11.11am on the 11/11/11". Diana Cooper.

11 is a master energy, about being visionary, idealistic and inspirational. 11 represents a channel of special awareness, with great breadth of vision. The wisdoms that come through the eleven are beyond intellect and come through on the two of emotion. On this date there may be a great deal of emotional control required to engage with the bigger picture and to uplift others with your vision. The mission that comes from this date is 26/ 8 which represents 'Lord Karma' and achieving success, so as to help others. The number eight represents changing patterns and mindsets that will otherwise go on forever. The eight is about bringing things to the surface, looking at them in a new light and deciding 'do I take this with me, do I let this go'. The shape of the eight represents the balance to be found between spirit and matter i.e. 'the deeper you go the higher you fly'. The eight is the one number symbol that has no end and never stops moving, the figure eight represents eternity when horizontal.

Many believe 'Angelic Doorways' will be opening everywhere from 11/11/11, that we will begin working more from the heart consciousness and that there will be the choice for this to break through to the collective consciousness. This can be a crux for humanity and there may be a deep cleansing of the earth as well as within us, as we work on all that keeps us from love. We may be

moving towards a more balanced way of being, a return to a simpler way of living, where we remember our divine inheritance. Things may start to happen more quickly and it may become more important to be responsible in our words, thoughts and actions as everything we think may manifest more quickly. There is now a great opportunity to focus on the positive and abundance – to be a part of a shift that will create a new reality. We may feel things more intensely as the earth cleanses and we cleanse. The earth has meridian lines and we have meridian lines within us which connect us to earth's energy. Everything on the earth is sacred and a big part of the shift is us appreciating this.

On a personal level there is a great deal we can do to help ourselves during this period for example by being in nature, drinking plenty of water (to release the toxins), eating organic food (with less toxins) and eating less meat (as we can literally be eating the fear an animal feels when it is not killed humanely).

Fear is created by something that has not yet happened !

Fear is a concept we have been indoctrinated with so we can be controlled

“This energy indicates the beginning of a new phase at a much higher level.

This should be a time of celebration, we are asked to celebrate our success to date and envisage how wonderful it will be in 2012”. Diana Cooper

“The second cosmic moment is at 11.11am on the 21/12/12”. Diana Cooper

21/3 represents birth of the idea and 12/3 can represent the potential for great harmony and co-operative projects, as 1 (masculine) cooperates with 2 (feminine) to make ideas happen (3) and as part of the process everyone has an opportunity to see things from the others perspective.

12/ 3 can also represent the Trinity, as well as the 12 apostles and the potential harmony between material, physical and emotional.

The mission that comes from this date 38/ 11/ 2 represents inspiring others through your work.

“This is a moment when great light will pour into the planet, there is the possibility of miracles and a further boost to enlightenment and ascension will occur. The opportunities arising as a result of this moment will be immense and sensitive people will feel this”. Diana Cooper

Ascension literally means to rise and in this context can mean building our vibrations to the levels of light. On a practical level this can mean choosing to purify our thoughts and cleanse our emotions, so as to take more loving actions.

On a practical level, as well as decluttering our mind, you may choose to declutter our physical surroundings, as by shifting all the old 'dead' energies, we are making room for the new energies to come through. So this is a good time to sort out any area of your house that may have clutter or old 'dead energy' that can be shifted to make way for the new energies.

“As soon as you dedicate yourself to Ascension and helping the Divine Plan for Ascension of our planet, you will be placed in the perfect slot for your talents” Diana Cooper

It is significant that the 2012 Olympic Games are being held in London.

The name 'London' has a 12/ 3 motivation and a 29/ 11/ 2 Expression, this means it is seen as a place that can inspire others to think in new ways. 29/ 11/ 2, represents bit by bit, continually, trying to bring in the light and to inspire others to think in new ways and to engage with great breadth of

vision.

“London is the Earth Star Chakra of the planet (Glastonbury is the heart chakra of the planet). This means there is the possibility that as a world we can raise our frequency during the Olympic Games and this may be triggered by an upsurge in excitement and hope”. Diana Cooper
