

## FROM THE FOUNDING OF THE COMMON MARKET TO ARTICLE 50

The Common Market was founded 25/03/57 when France, West Germany, Italy, The Netherlands, Belgium & Luxembourg signed a treaty in Rome establishing the European Economic Community (EEC), also known as the Common Market.

The mission that comes from this date (50/14/ 5), is all about the power of the word and finding freedom despite the limitation to break out of the box or the existing structure (4) to bring about change (5).

In this date there is planning, determination and spirituality all about making the vision real, but there is also emotional turmoil with regard to the challenging big projects that result. As you can see from the above 'Relationship Chart' central to this date are these big projects (22/ 4 challenge) and the communication and creativity (3) that result.

The Soul Urge that comes from the name European Economic Community (71/ 8) (see below) is also about making the vision real. The OSE (Overall Self Expression) 125/ 17/ 8 is about seeking out the truth and getting to the bottom of things. The 8s involve massive re-evaluation, as everything is brought to the surface to be transformed.

The abbreviation EEC has OSE 13/ 4 which represents transformation and rebirth. The 3 here has a zero behind it, which brings great creativity to the 4 which is about stability and structure. There is the potential here for the existing structure of the 4 to be shaken up to bring about transformation.

So the date and the name bring great potential to move from stability and structure to creativity, transformation and change.

Britain applied to join the EEC 01/08/1961 and as you can see from the 'Relationship Chart' (above), Britain was in a completely different place to the mission that came from the founding of the EEC. The shape this date makes on the 'Relationship Chart' imply that Britain at this time needed an audience and very much wanted to be seen as the managers in charge of knocking down and rebuilding, wanting the approval of the other countries to take the EEC in a whole new direction, focussed more on business and survival. The mission and the challenge that comes from the date Britain wanted to join the EEC (26/ 17/ 8) is a powerful karmic number which can involve being pushed into blind experience and being forced to re-evaluate. Britain at that time may have felt very much on the outside, isolated and misunderstood.

The vibration of the name 'Britain' and also Theresa May's Soul Urge or motivation (see below) is very much about the correct use of power as well as struggle to be independent and self confident (represented by 19/ 10/1). But Britain's vibration is also about having to let go and trust (18/ 9), which is the starting point of the date Britain applies to join the EEC (01/08/1961)

When Britain finally joins the EEC (01/01/1973) we are in a completely different place (on the 'Relationship Chart'), potentially inspired to think in new ways (with 11/ 2 at front of this date) and the mission that comes from this date (22/ 4), is about big projects that may mean rebirth at a much higher level, with much greater breadth of vision. This date involves Britain being a part of the big

projects (22/ 4) that are a challenge to the EEC. As you can see from the 'Relationship Chart' central to this date is the 2 of diplomacy and peace-making. This date also make Britain central to these big projects (22/ 4) that are such a challenge to the EEC (see the 'Relationship Chart'). The sum of the lessons that comes from this date (19/ 10/ 1) is all about the correct use of power, as well as a struggle to be independent and self confident. So, behind this date or event Britain may again feel isolated and misunderstood as there may be great frustration with regard to potentially moving away from what was truly desired initially, with a great deal of compromise.

Britain then held a referendum (05/06/1975) to gauge Britain's continued support of membership of EC (European Communities). The mission that comes from this date (33/ 6) as well as what is central to this date on the 'Relationship Chart' (6) brings a great sense of responsibility and great devotion to a cause. This OSE that comes from the name BREXIT has a very similar vibration of 33/ 15/ 6 and can mean being used for a higher purpose. 33/ 6 is known as the saviour number, as it can mean feeling so responsible (6) for the happiness of everyone (33) that you can give too much trying to save everyone. The 56/ 11/ 2 at the front of the date can make you a brilliant organiser, but it is ultimately about the journey from the head (5) to the heart (6). The challenge that comes from this date (22/ 4) are the same big projects that have been a challenge since the Common Market was founded and they are now a challenge for Britain too. There s a great deal of determination, but also emotional turmoil as Britain may feel they are right at the centre of things and possibly the only one's taking full responsibility by following all the rules to the letter etc. The date of the referendum on the 'The Relationship Chart' together with the date The Common Market was founded bring together the 4 (of stability) and the 5 (of change) and can bring to a head the 50/ 14/ 5 mission that came from the founding of The Common Market. This mission is all about the power of the word and finding freedom despite the limitation to break out of the box or the existing structure (4) to bring about change (5). Britain may have felt as if it had gone from the sidelines to the centre of the big projects. It may have become important to simplify things and there may be explosions and emotional turmoil as the need to communicate thoughts and feelings becomes critical.

At this time the EEC is referred to more as EC or European Communities and the Soul Urge or motivation that comes from this name (52/ 7) is about being pushed to the edge to find yourself and to find the compassion (or the spiritual), as the Personality (40/ 4) is about holding onto the existing structure. The OSE 92/ 11/ 2 is about being inspired to think in new ways and so communicating in new ways, which may meet with great resistance (from the 40/ 4) and so may bring great instability. The initials EC have a vibration 53/ 8 which is about 'climb the mountain fighting' and can mean fighting authority and power to focus on survival.

Article 50 was triggered 29/03/17 and as we can see from the 'Relationship Chart' our emotions (2) are connected to our words (3) and our challenge becomes our independence (1) as our great sense of responsibility (6) becomes focussed on ourselves and our survival. The job to be done, that comes from this date is the 22/ 4, are the big projects that has been the communities challenge throughout. The 29/ 11/ 2 at the beginning of this date represents birth of light as a truth may become crystal clear to us, but this vibration also brings a fear of failure, as we may have the ideas but we may doubt ourselves . The challenge (10/ 1) is about true independence and the courage to stand alone with pioneering spirit. The first goal that comes from this date (32/ 5) is the same as Theresa May's personal mission and represents the ability to communicate through personality and the potential to build something solid from ideas. The lesson that comes from this date (4) is about building

something solid from our ideas, despite our fears.

Article 50 (below) also incorporates this energy and is about potentially being the messenger for this (32/ 14/ 5) and can symbolise breaking out of the box to find our truth and live our truth.

When you add 50/ 5 to the Overall Self Expression (OSE) 82/ 19/ 10/ 1 is again about the correct use of power and brings to a head the struggle to be independent and self confident.

82/ 19/ 10/ 1 in numerology also represents the will to implement the wisdom of the new consciousness, which is about making our ideas a reality and building something solid based on new ideas.

The mission that comes from this date (42/ 6) is about taking responsibility (6) to provide for all and can mean being very practical (4) this can also mean breakthrough, but there is a danger of trying to impose your beliefs on others.

The election that will be happening 08/06/17 has a very similar vibration and has the mission 24/ 6 (which is the same as Theresa May's Personality No.). As you can see from the 'Relationship Chart' central to this date is this 24/ 6 mission. Which can represent 'perfect harmony in time and space' but can also represent being pushed out of our comfort zones but being quite ruthless about getting what we want.

The 86/ 14/ 5 at the fount of the date, is about finding freedom despite the limitations and keeping things as simple as possible. It is interesting that this date helps us to complete with regard to the way we wanted things to be when we applied to join the EEC 01/08/1961 and the mission that came from the date the Common Market was founded (25/03/57), 50/ 14/ 5. The key here is the great responsibility to see things through and deliver, so connecting business and re-evaluation (8) with true independence (1).
