

Lady Diana, The People's Princess...

Lady Diana, The People's Princess was sadly killed 31st August 1997 and 31st August 2017 will be the 20th anniversary of her passing.

Looking at her life in terms of Numerology, Diana's Numerology Chart shows someone deeply complex, emotional and very sensitive. Also someone who may feel very isolated and misunderstood and who could be very manipulative. There also is a great deal of karma in her chart: -

Her mission in this lifetime (as well as her Expression no. or 'what the world sees' with the name Lady Diana Spencer and Personality or essence with the name Lady Diana) is a powerful 16/ 7 karma. This karma may have meant a great deal of transience and change as in her world, as she is encouraged to build her inner resources and make the spiritual (7) central in her world. This karma means that she may have walked away if others were suffering in a previous lifetime, not because she was a nasty person but because she had no idea what they were going through. Because of 'going through the mill' in this lifetime, she may have found it very difficult to walk away when another is suffering in this lifetime. Her mission was about counselling and helping others as the 'cure' for this karma is give love, increase spiritual understanding counsel and help others. 16/ 7 karma is the ultimate mirror, the higher 6 can mean looking for perfection in the world and being disappointed. Ultimately 16/ 7 karma is about seeing the beauty without the perfection and staying devoted to a cause.

Diana's mission (25/ 16/ 7) also encourages her to learn from life rather than from books, to be a fast mover, progressive, always wants to be one step ahead.

Diana's overall self expression with the name Lady Diana Spencer (70/ 16/ 7) encourages her to counsel and help others in her own way trusting and following her inner voice (7). On the 'Relationship Chart you can see the 7 is central in her world.

From Diana's name at birth: -

11	6	10	Urge of Soul or motivation = 27/ 9
91 1	1 5	5 5	
DIANA	FRANCES	SPENCER	
4 5	69 5 3 1	17 53 9	
9	24	25	Personality or Essence = <u>58/ 13/ 4</u>
			Overall Self Expression or 'what the world sees' = 85/ 22/ 13/ 4

We can see Diana's motivation in life (or Urge of Soul) 27/ 9 encourages her to see her great sensitivity as a strength and again to make the spiritual (7) central in her world. 27/ 9 is all about wisdom from feelings and emotions.

With the name Diana what opens doors for her (9+11) is 20/ 2 energy, the goddess or the 'all seeing eye'. The 2 works in subtle ways as the peace maker or the diplomat, but all the time there is conflict on the inside this is reflected back, so Diana may have felt in the middle of a conflict zone. The 2 may also encourage separation, in order to see both sides of a situation.

Diana's Overall Self Expression (or 'what the world sees') as well as her personality (the essence of who she is) is powerful 13/4 karma

Also after marriage the name Di as well as the name's Princess of Wales and Duchess of Rothesay all have Overall Self Expressions no.s of 13/4.

13/4 karma may mean Diana avoided work and responsibility in a previous lifetime and in this lifetime she is being forced to work hard for everything. This karma is about making something from nothing, never giving up and ultimately is about transformation. The only 'cure' for this karma is to progress despite the limitations, if you give up things can become harder for you. With this karma you may feel very boxed in and stuck (you are literally working twice as hard to get half as far). You may also find yourself in environments where others are trying to impose their way of thinking on you and insisting things are done in the way they have always been done.

The 3 in 13/4 has a zero behind it, giving the potential for self-expression and creativity, add the fire and passion of the 1 also there is the potential to shift from stability to instability in order to bring about change.

The essence of Diana's personality from Birth (58/13/4) can mean great opportunities for growth and change arise from the obstacles that she may meet, the higher 8 here can mean massive re-evaluation as the 5 of the mind thinks in whole new ways, demonstrating and communicating this wisdom, so encouraging others to think in new ways too.

This can result in great adaptability and change, as 13/4 karma can push you to your limits.

The overall Self Expression from Diana's name at birth (85/22/13/4), (or 'what the world sees') are big projects (22/4) potentially coming from Diana transforming obstacles into stepping stones. 85/22/13/4 can mean a master of inspiration as she may be seen as turning things around and having great breadth of vision, despite the obstacles.

After marriage, the name Princess of Wales has an overall Self Expression (OSE) of 67/13/4 this energy represents 'practical perpetual service' and 'acceptance of service' 'service in tune with need'. Again with this number there is the higher 7 here which is central in Diana's world. This role may have encouraged Diana to help others in her own unique way, in order to complete her 7 mission. The 13/4 in this number can also represent a foundation for reinvention.

The lesser known title Duchess of Rothesay has the OSE 76/13/4, this represents 'service with common sense' and can also be a foundation for reinvention.

In time Diana's name became abbreviated to Di, which also represents 13/4 karma, as this was used as her first name, this can mean that others saw Diana as someone beset with obstacles, but someone with the breadth of vision and not afraid to put themselves on the line, to take risks in order to bring about change and transformation.

From birth what brings everything together for Diana is 45/18/9 energy which can mean holding on too tightly to a structure that has gone and ultimately having to let go and trust, despite being a perfectionist. A zero behind the 8 here can mean a massive re-evaluation of how best to help

humanity (9) and the 5 also with a zero behind it, can mean using her higher mind to teach others from her experience and understanding.

With the name Di, 40/ 22/ 13/ 4 becomes the energy that brings everything together for Diana. This can mean that obstacles, transformed into big projects by Diana, helping her to find the inner strength she needed to turn things around and ultimately to help others to do this as well.

From birth Diana's challenge no. 17/ 8 is all about seeking out the truth and getting to the bottom of things. Again the higher 7 here brings an awareness of the power of the spiritual and the massive re-evaluation that can result from this (8).

After marriage Diana's OSE became 89/ 17/ 8 and this can represent someone pushed into blind experience to reveal some level of universal truth. As an OSE she is seen as someone living her truth (or trying to) despite major obstacles and being in new territory.

With the name Lady Diana her OSE is 35/ 17/ 8 and with the name Lady Di her Soul Urge is 17/ 8.

OSE 35/ 17/ 8 means that with the name Lady Diana, she was seen as someone achieving great success through creativity (3) and communication (5) resulting from being true to herself and living her truth. With the name Lady Di, she is seen as someone who's motivation is to live her truth and get to the bottom of things.

Diana was also known as The People's Princess and this name illustrates how brilliant at communication Diana was. The Soul Urge or motivation that comes from this name (32/ 5) makes her brilliant with media, communicating through her personality, especially when speaking for others. The OSE from this name (86/ 14/ 5) is all about being the messenger who finds freedom despite the limitations. Those who gave her this name saw her as someone doing this, but also someone very unsettled, wanting security and stability (4) as well as freedom (5). The Personality or essence of this name is 54/ 9 energy represents 'squaring teaching with experience and understanding' this can also mean she has a lot to teach us from her experiences and this can help many.

What 'opens doors for Diana with this name is 15/ 6 energy which represents the 'Angel/Devil No.' i.e. Diana has to decide whether to stay in the 5 senses or to move to the much higher ground (the 5 here has a zero behind it and 5 is the only number that has the potential to move to the higher mind).

The mission that comes from Diana's sad passing on 31/08/1997 is 65/ 20/ 11/ 2 which is all about inspiring others to think in new ways with the higher mind (5) born of a great sense of responsibility (6). This can result in great creativity as we are all potentially inspired to think in new ways. The starting point of this date is 31/ 4 energy, which represents the flag bearer up the front there, the 30 uplifting others with her vision and the 1 representing great fire and passion, wanting to build something solid (4) based on this. The gift (8) and the challenge (26/ 8) that come from this date makes the 8 energy central on Diana's 'Relationship Chart'. 8 represents a massive re-evaluation (as above, so below, the deeper, you go the higher you fly), the 8 is ultimately about balancing the material with the spiritual and changing patterns that will otherwise go on forever. The challenge

here (26/ 8) represents Lord Karma, which is ultimately about achieving success so you can help others, using knowledge and power for the higher good (the higher 6 represents a great sense of responsibility and this features strongly in Diana's mission too). This number can also represent everything coming up to be transformed.

As you can see from the 'Relationship Chart' 8 is central to the date of Diana's passing. This 'Relationship Chart' also indicates that Diana completes a great deal with regard to 'seeking out the truth' her challenge in her lifetime. For the mission that comes from her passing to be completed, inspiration and creativity (that can from mission from this date (65/ 20/11/ 2)), needs to be connected with the practical (4) to build something solid.

Diana herself together with the date of her funeral complete a great deal with regard to this, but it is left to others to complete with regard to this.

The mission that comes from the date of Diana's funeral (06/09/1997) is 41/ 14/ 5. This energy represents matter (4) and spirit (1) working together to shake everything up at every level to bring about change (5). The 14/ 5 is the messenger communicating this, also encouraging freedom despite the limitations to pursue this.

The shape the date of Diana's funeral makes on her 'Relationship Chart' indicates something potentially unstoppable is generated. Again it is left to others to expand this further and to connect a great sense of responsibility (6) with shaking everything up at every level to bring about change (5), something very much in keeping with the mission that came from her sad passing (65/ 20/11/ 2).

Powerful energies at work here, inspiring many to think in new ways ...

It is interesting to note that Diana's husband Charles and children William and Henry (or Harry) are all 'Old Souls' here very much in service and with a deep understanding of the lessons Diana potentially taught us. Diana's sons in particular are well placed to continue the change and transformation she initiated ... potentially helping many people ...
