

## The significance of the No. 7 for David Beckham: -

David Beckham is an 'Old Soul' this means that he has been reincarnated so many times, and has been exposed to the major lessons often enough, that he has an awareness of them all and this can give him great wisdom. His Mission as well as his Soul Urge (or Motivation), are also 11 Master Energy. This gives him great charisma, the ability to change the way others think, to be visionary, idealistic and inspirational. This can make him an amazing channel of special awareness as the wisdoms that come through him can be beyond intellect. There can however also be a great deal of nervous tension with such a combination, so it is good that he can channel his considerable energy into football, as well as being a great ambassador and father.

The significance of the 7 for David Beckham is that for him this number or energy represents his 'First Goal' and the 'Essence of who he is'. The 7 energy also represents a lesson for him (and Victoria) to learn again in this lifetime, for the sake of others as well as being a gift that comes from their marriage date.

7 is the most spiritual number and represents perfection in man and taking spirit into matter i.e. we have 7 chakras, there are 7 colours in the rainbow and it takes 7 different types of metal to make the perfect sounding bell. 7 can mean needing space and time on your own to know yourself at the deepest level and to have the courage to follow your inner voice. There can be great integrity with the 7 as you need to be true to yourself at the deepest level. This can at times make you quite oblivious to what others may think. There can also be inflexibility with the 7 as you may decide at a very deep level what you want to happen next and if it does not, things can become very difficult. There can also be a tendency to over analyse and to be a perfectionist.

The 7 lesson, which he is learning again for us all, is the power of the spiritual i.e. learning to trust his intuition and listen to his own inner guidance.

The energy that opens doors for Victoria is the 43/ 7, this can mean rigid ideas being knocked out of her, as she is forced to go with the flow and trust her inner voice. Victoria's Soul Urge (or motivation) when using her married name is 52/ 7, this means in being motivated, she may feel 'pushed to the edge' before she can trust her inner voice.

The essence of who Victoria is, is 47/ 11/ 2, this can mean inspiring herself and others by making her dreams come true, and it's interesting that this becomes David's Expression when he uses the name David Beckham rather than his name from birth i.e. David is seen by others as someone who inspires others by making his dreams come true. David's mission is 29/ 11/ 2 represents 'bringing in the light' by continually trying to elevate those around him, to see the much bigger picture, (this is also a sub-lesson for Victoria and David as they get older, this means David and Victoria may re-evaluation the importance of the spiritual world, as in order to inspire others they need to be inspired themselves). David's Soul Urge or motivation from birth is 38/ 11/ 2 this, is all about inspiring others through his work. It is good that David and Victoria can share such breadth of vision.

It is interesting that David changed the number on his shirt to 23 (because of his hero Michael Jordan). 23/ 5 is known as the 'Peter Pan' number and is about possibly being very up and down; up with brilliant ideas but down with emotion. This energy is about going with the brilliant ideas without the procrastination or the fear. (This energy also represents Victoria's Expression from birth i.e. how others see her). David has a 'Line of Determination' which means he can persist and bounce back from setbacks, but he may also stick with things long after the time to let go has past. Victoria has a 'Line of Sensitivity' which can make her very sensitive to the opinions of others and this can mean she may misrepresent herself as a form of protection. It is very important that her sensitivity initiates projects rather than stops her doing things. Victoria also has a 'Line of Physicality/Practicality' which means she has great stamina and deals with her great sensitivity and emotion, by simply getting on with things.

What opens doors for David is 22/ 4, another Master energy – the master builder. This energy means that David needs always to be involved with big projects that physically change the world and which he is passionate about. There may be times that others do not get his breadth of vision and David may feel he has to make his vision

real, just so that others can understand. (Victoria's name starts with a V, which is the 22<sup>nd</sup> letter of the alphabet and can represent 'Inspirational Master').

David then changed the number on his shirt to 32 and 32 /5 represents 'crystallised sunshine' and can mean comparing yourself to others and feeling that you don't measure up. Being an 'Old Soul' with huge amounts of Master Energy can be very isolating, especially when you compare yourself to others.

It is interesting that David is now thinking of a number 77 shirt, 77 represents 'keeper of the silence'. This is a very complex number that represents finding words for the unseen, finding your centre and bringing out the words and the magic. It is almost as if David was thrown off balance, looking for what he needed on the outside and that he is now finding his centre again.

The 77 is the keeper of the silence, the 14/ 5 behind this (i.e.  $7+7 = 14$ ) represents the messenger and can mean David goes from silence to the words pouring out of him. 14/ 5 also represents, needing freedom as well as security and stability. This means ideally finding freedom within limitations i.e. building your own structure (perhaps home or work) and then finding freedom through this, finding the freedom to truly be who you are. If you are unable to do this you can be very unsettled. The 5 represents using your 5 senses to find your truth and to live your truth.

5 energy is very significant in Victoria's life, in fact she has so much 5 energy that she can swing between either going overboard on freedom or feeling a fear of freedom and of taking risks. 41/ 14/ 5 as well as 32/ 23/ 5 are powerful obstacles for Victoria, 41/ 14/ 5 represents Victoria finding freedom within limitations through spirit and matter working together i.e. trusting her inner voice and making things happen. 32/ 23/ 5 represents going for her brilliant ideas without the procrastination or fear, trusting her inner voice rather than comparing herself with others. Victoria's Expression after marriage i.e. how others see her after marriage is 68/ 14/ 5 the 68 represents practical communication of freedom within limitations. To me Victoria does this through her clothes. 5 is also a lesson for Victoria to learn again in this lifetime, to take others with her. This means Victoria may at times have to learn to be more adaptable and to deal with situations with more versatility. As well as adapting to change in her life, this also means respecting the freedom of others and learning to be more tolerant and understanding. Learning the lessons of each experience and helping others benefit from your resulting commonsense.
