

# **Numerology for 11/ 11/ 2011**

This date is just full of master energy and is described by Diana Cooper as a ‘cosmic moment’ in the build up to the massive shift in consciousness starting 21/12/12 and with a 20 year transition period. If you are sensitive you may feel great emotion especially 11 past 11am on this day and the challenge for everyone will be to remain practical and grounded. Master energy takes the form of 11/ 2 – visionary, idealistic and inspirational, 22/ 4 master builder, changing the world physically and building with love, 44/ 8 is about survival, so there is a tough edge to this day. The mission for this date is 26/ 8 which basically means achieving success so you can help others and this may mean changing patterns and mindsets that will otherwise go on forever.
